## ABOUT US

Guzzie, (pronounced "goozy"), is the nickname given to the founder's daughter by her big brother. Guss, of course, was her imaginary friend. While Guzzie is all grown up now, with two wonderful daughters of her own, the nickname still sticks. And so too does the family's dedication to creating amazing baby products, as well as the longstanding loyalty to those who have worked with us for decades now. It's all about family.

Our focus is to provide moms and dads with quality baby gear. We understand that providing exceptional gear is crucial for parents, which is why our mission is to design innovative hooks-on chair and stroller that embody the perfect blend of nimbleness, lightweight, construction, and durability. We strive to create products that not only simplify everyday parenting tasks but also ensure safety and comfort of every child.

We are committed to quality and safety. Our products go through internationally recognized regulatory testing to make sure they meet all the safety standards. When your customers bring home our products, rest assured that our attention and dedication are included into every detail. We put extra care into developing each product, ensuring that we deliver baby products of the high quality and safety standards.

## HOOK-ON CHAIR

# Perch

The amazingly portable Perch table-chair provides a seat at the table. Just about any table, anywhere. It's a space saver at home and yet folds up easily for travel or storage. Most importantly, kids will love hanging around for mealtime while being at eye level and part of the conversation.
